

Parenting in the Digital Age

Being a parent in the 21st Century can present some challenges, so it is important to use all the tools, strategies, and tips available to navigate this constantly shifting world. Luckily, technology is on your side!

The 'Parenting in the Digital Age' seminar will introduce you to a range of resources, from Constable Care Foundation's VR technology to Telethon Kids Institute's the latest digital health research including resources for cyber safety, and social, emotional and physical wellbeing.

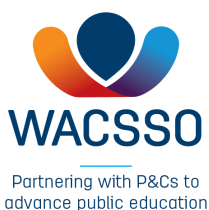

This **free** event will feature several 20-30-minute sessions and will be broken up into primary and secondary school streams, so you can choose the presentations or workshops most relevant to you. Further information on each of the streams can be accessed in the Registration link below. We look forward to seeing you there. Catch you in the oculus rift!
